Sol&luna's Leather

Sol&Luna's leather is completely natural and our products are hand finished made from a fine cow leather.

We work with artisans and all our items are handmade.

Great care is taken during the tanning process to retain the natural characteristics of the leather. Examination of the finished product will reveal some variations of colour, graining and briar marks from scratches sustained during the life time of the animal.

All of which guarantee that each piece is unique.
