SPRINKLE

Floor lamp, Linear pendant, Outdoor bollard.
Design Note Design Studio 2023

We are excited to announce the expansion of our popular Sprinkle lighting collection with the introduction of three new pieces: a floor lamp, a linear pendant and an outdoor bollard.

The Sprinkle floor lamp boasts the same striking geometric silhouette and transparent slats as the original pendant, now adapted for a freestanding form. This unexpected and distinct design adds a touch of sophistication to any space.

The Sprinkle desk lamp brings the same attention to detail and design to your workspace, with a compact size that fits perfectly on any desk. Its transparency and layering of light create a narrative and unique atmosphere, perfect for any home office or study.

Together, the Sprinkle floor lamp and desk lamp complete the Sprinkle family, offering a range of lighting options for any space. And with our commitment to efficient and local production methods, we can offer these pieces at a price point that allows for them to be incorporated into any larger design scheme.

We are confident that the Sprinkle floor lamp and desk lamp will add a new level of personality to any room, and we can't wait to see how they are incorporated into the creative spaces of architects and designers everywhere.

LUMO

Catenary pendant, wall fixture.
Design Thomas Bernstrand 2023

This year's extension of the Lumo family is a catenary pendant and a wall fixture.

Both are IP65 rated for outdoor installations. This offer a larger range of options for indoor and outdoor installations.

Lumo is a classical, cone-shaped fixture, cast from a single piece of aluminium.

The six-millimetre-thick shade ends elegantly with a nice full radius. The diffuser is imperceptibly mounted into the shade in a way that avoids glare.

COMPOSE

Table lamp, Floor lamp, Wall fixture, large metal shade.
Design Jens Fager 2023

This year's newcomers to the Compose family are floor & table lamps, wall fixture and a larger version of the metal shade. These complete the Compose family and offer a large range of options. Compose is renowned for its multitude of expressions, thanks to its versatile options. The aim is to offer a fixture that is more like a tool, or an instrument, from which the most beautiful music can be composed.

Let's Compose!
